OVERVIEW

Fusion Techlab is one of the leading one-stop business solution providers based in Kolkata, India. Started in the year 2016 to cater to the needs of the domestic market and gradually made forays into the international scenario. Fusion Techlab is An ISO 9001:2015 Certified Interactive Software Development Company. It's our pride that today we've a full-fledged development team for all major web and mobile platforms that help us to provide commendable personalized solution.

With a young and enthusiastic team of skilled and experienced professionals we provide services that include Web Design and Development, ERP & CRM Software Development, Android and iOS App Development as well as Digital Promotion services.

WHO WE ARE

Fusion Techlab is an interactive business solution provider that helps companies to use the online channel as an effective marketing and business tool. We combine data, insight-driven strategy, efficient technologies and rigorous optimisation to support companies to establish as a brand as well as to improve relationship with clients, partners and employees.

We offer a wide range of strategy driven solutions that help clients to start, augment or add vibrancy to small and medium businesses and excel in their domain subduing their competitors. Based on information infrastructure sutra, we provide complete solution, let it be software or mobile app (Android & iOS) development, website development, Online Marketing or ITES services.

OUR COMMITMENT TO PEOPLE

We endeavour to serve the needs of our clients and employees by implementing forward-looking digital strategies that are feasible, efficient and cost effective. As our corporate responsibility, we also actively contribute to the goals of society.

OUR COMMITMENT TO THE FUTURE

By continually developing innovative technologies, we strive to create products and services that enhance your business performance and which lead to a thriving, healthy outcome. We constantly seek new approaches that help realise the goals of the global community, including ways to improve the web world.

HOW WE WORK

Our solutions are designed to offer information on-the-fly using the technology, internet and internal data center. We synchronise our knowledge, skill and experience to develop unique and proven solutions that will truly simplify your business processes by correlating the departments, improving productivity and boosting up the brand image.

All our solutions are backed up with outstanding after-sale-support that enables easy deployment and management allowing our clients to enjoy lesser total cost of ownership and faster ROI (Return on Investment).

Fusion Techlab nurtures an efficient team comprising of both technology and business experts. The team pride themselves on

1. Getting to understand client's business
2. Working with the client to create a total web solution
3. Making it easier to understand all the 'technical aspects'
4. Improving communication between "Your" clients and "You"
5. Lowering your marketing and development costs
6. Increasing the sales and profitability of your business

CEO

Md Abdur Razzak is the Founder as well as the Proprietor of Fusion Techlab who has more than 16 years of entrepreneurial, managerial and software development experience. He is a B.Tech engineer in Computer Science with more than 8 years of rich experience as a Java and Android developer in MNC'S. His clear vision and firm decision about the future plans and strategies of the company are the consistent sources of inspiration for his team as well as many businesspersons.
